June 1, 2004

Mr. Bell:

In reference to the recent plant patent application, *Brunnera macrophylla* plant named 'Looking Glass', Application No. 10/724,961, Filing Date 12/01/2003, Group Art Unit 1661, Docket No. BRULG 1.1, the applicant respectfully resubmits the substitute specification. Enclosed are two copies of the corrected specification and two clean copies for publication.

I respectfully request that the enclosed specification be accepted and replace the previously filed specification. I believe this resubmitted version addresses all the objections of the examiner, and more clearly and completely describes the plant. No new matter has been introduced. I believe I have adequately addressed all of the objections of the examiner and fully, clearly, concisely and accurately depicted the characteristics of the stated plant.

Please accept the current specification, which, I believe, fit the current requirements. Thank you again for all your assistance in this matter.

Sincerely,

Clarence H. Falstad, III
